

LYNDSIE LANE

1241 Little Deer Run Canton, GA 30114 · (678) 346-5328

lyndsieelane@gmail.com · www.linkedin.com/in/lyndsieecodes/ · www.lyndsielane.com

A self-motivated IT professional with knowledge and proficiency in JavaScript, HTML, CSS, accessibility, and mobile responsive web development, as well as strong skills and ability in writing clean and efficient code, seeks the position of Front-End Web Developer.

EXPERIENCE

01/2022 – PRESENT

WEB DEVELOPER, PATIENTNOW

- Work with customers, account managers, and upper management to build and maintain websites and content to customers' satisfaction.
- Communicate work progress to customers and account managers as projects progress across our 400+ customer website base.
- Host creative calls to determine needs and desires for new website builds and create new, responsive sites quickly and efficiently within the given timeframe.

09/2010 – 06/2021

CUSTOMER SERVICE TEAM LEAD, KEMIRA

- Managed Coagulants Customer Service Team servicing US and Canada, totaling six members.
- Resolved complaints and issues with orders while quickly finding a solution agreeable to customers and the company.
- Trained team members and assist with their daily work questions and issues.
- Improved processes and managed projects for implementations.
- Managed relations across segments and departments and worked closely with product line management.

- JAVASCRIPT
- REACT
- NODEJS
- WORDPRESS PHP

PROJECTS

Outdoor Trading Co

- <https://github.com/lyndsielane/outdoor-trading-co>
- <https://gentle-bastion-45496.herokuapp.com/>

An outdoor trading website. This was a group project where I focused on creating the React components and compiling the pages as well as some design aspects.

The page utilizes HTML, CSS, JQuery, Express, NodeJS, React, and more.

Educational Bank Simulation Application

- https://github.com/lyndsielane/Get_Money_Smart
- <https://polar-river-76787.herokuapp.com/>

A simulation banking designed for classroom use to give middle-school aged students an introduction to online banking. This was a group project where I designed the logo and used it to choose a color scheme for the site. I did the basic page design/layout and worked with the JS and API routes as well.

The page utilizes HTML, CSS, JQuery, Sequelize, Express, NodeJS, Foundation, Handlebars, Dotenv, and more.
